

include/container/nodes  
/node.h

```
graph TD; A["include/container/nodes  
/node.h"] --> B["cstddef"]; A --> C["utility"];
```

The diagram illustrates a header file dependency. A top box labeled 'include/container/nodes/node.h' has two blue arrows pointing down to two separate boxes labeled 'cstddef' and 'utility', indicating that 'node.h' includes both of these headers.

cstddef

utility
